RAKESH KUMAR NAYAK

Software Engineer | Java | Spring Boot | REST APIs | React.js | AEM

+91 7205030445 | rk.nayak1305@gmail.com | linkedin.com/in/rakeshkumar1305 | github.com/rakeshkumar1305

PROFESSIONAL SUMMARY

Software Engineer with 2 years of experience building enterprise web applications on Adobe Experience Manager (AEM), including Java backend services (OSGi, Sling Servlets, REST APIs), SQL/MySQL integration and HTL,JavaScript and React JS for frontends. Now focused on Java full-stack development, with hands-on training and project work in Core Java, Spring Boot, Hibernate and React.js. Experienced in API integration, cross-stack debugging and an AEM 6.5 to 6.5 LTS migration.

TECHNICAL SKILLS

Programming: Java, JavaScript

Backend: Spring Boot, Spring, Hibernate, JDBC, Servlets, JSP, REST APIs, JSON

Frontend: React.js, JavaScript, HTML5, CSS3, HTL

Database: MySQL, Oracle 19c, SQL

Enterprise / AEM: AEM Sites, AEM Assets, AEM Forms, OSGi, Sling Models, Sling Servlets, JCR, Workflows, Workflow Launchers, Job Consumers, Event Listeners, Schedulers, GraphQL, ACL Permissions, Oak Indexing

Tools: Git, GitHub, Bitbucket, Maven, Jenkins, Jira, Postman, Eclipse, VS Code, MySQL Workbench

PROFESSIONAL EXPERIENCE

Software Engineer | Bhasaka Technologies, Hyderabad | Aug 2025 – Present

Project: FleetCoreE2E – AEM Sites | AEM 6.5 / 6.5 LTS, Java, OSGi, Sling, HTL, JavaScript, REST APIs, JCR

• Worked across frontend and backend application development using HTL, JavaScript, Java, Sling Servlets, OSGi Services, and REST APIs.

• Developed and maintained Sling Servlets and OSGi Services; integrated REST APIs and backend services based on functional requirements.

• Designed reusable AEM components and worked with JCR content and repository functionality.

• Analyzed existing application code, debugged defects, and delivered fixes across frontend and backend components.

• Contributed to the migration from AEM 6.5 to AEM 6.5 LTS, including debugging and issue resolution.

Project: O'Reilly – AEM Sites & Assets | AEM 6.5, Java, OSGi, Sling, JCR, Servlets, Workflows

• Developed and enhanced Sling Servlets and Java backend functionality; worked with JCR content and AEM backend components.

• Implemented Workflows, Workflow Launchers, Event Listeners, and Job Consumers for business process automation and asynchronous processing.

• Built mail notification, duplicate-asset identification/validation, image trimming/versioning, image generation, and reporting features.

• Configured Oak indexes for search, managed ACL permissions, implemented application logging, and resolved functional issues.

Additional AEM Forms Experience | AEM Designer, FDM, REST APIs, SQL/MySQL

• Created forms using AEM Designer; integrated SQL/MySQL databases and REST APIs through Form Data Model (FDM).

• Implemented Workflow-based, FDM-based, and REST API-based submit actions; integrated reCAPTCHA and DocuSign.

• Supported API integration, debugging, and troubleshooting for AEM Forms functionality.

JAVA FULL-STACK PROJECTS

E-Learning Management System | Java, Spring Boot, SQL, React.js

• Developed a full-stack platform supporting students, instructors, and administrators.

• Developed RESTful APIs for CRUD operations, integrated backend services with SQL, and implemented role-based access control.

• Developed frontend functionality using React.js and integrated it with Spring Boot REST APIs.

Banking Management System | Java, Spring Boot, SQL, React.js

• Developed a banking application supporting account creation, transactions, and data updates.

• Developed backend services using Java and Spring Boot with SQL database integration.

• Integrated frontend functionality with backend APIs using React.js.

EDUCATION & TRAINING

B.Tech in Computer Science – Roland Institute of Technology, Berhampur, Odisha (BPUT) | 75% | 2020–2024

Java Mastery Program – JSpiders: Core Java, JDBC, Servlets, JSP, Hibernate, Spring, Spring Boot, SQL, HTML, CSS, JavaScript, and Full-Stack Development with React.js.
